The Lupin Genesis Program

Key support services include:

For patients

- A personal coordinator for reimbursement/financial assistance
- Access to a **nurse** who provides support to **initiate and transition patients to LUPIN-TOLVAPTAN** and helps answer questions about their treatment
- Access to phone call reminders** for patients to go for blood tests and to support their treatment journey
- Pharmacy services** and delivery of LUPIN-TOLVAPTAN to the patient's home or work

For HCPs

- A **delegation service** for **liver function tests monitoring** to a third-party nurse or pharmacist

For patients and HCPs

- Access to www.LupinGenesis.com, a website for both patients and HCPs with a newsletter program exclusive to patients

Notes:

Consult the Product Monograph at www.lupingenesis.com for conditions of clinical use, contraindications, warnings, precautions, adverse reactions, interactions, dosing and monitoring. The Product Monograph is also available by calling 1-844-587-4623.

LUPIN-TOLVAPTAN (tolvaptan) is indicated to slow the progression of kidney enlargement and kidney function decline in adult patients with autosomal dominant polycystic kidney disease (ADPKD). In ADPKD, kidney enlargement reflects renal cyst burden.¹
